

## NONDIRECTIVE OPTIONS COUNSELING/REFERRAL

### THE LEGAL STATUS OF ABORTION IN MISSISSIPPI

As of July 7th, 2022, the following restrictions were put into place:

- All methods of abortion (telemedicine, abortion pill, suction abortion, and D&E abortions) are currently banned.
- Exceptions are made only in cases of reported rape or where the mother's life or health is severely endangered by her pregnancy.

#### Title X Facts about Abortion Services

- Abortion **will not** be provided as a method of family planning.
- Pregnant clients will be offered the opportunity to be provided information and counseling regarding each of the following options:
  1. Prenatal care and delivery
  2. Infant care, foster care, or adoption
  3. Pregnancy termination (42 CFR § 59.5(a)(5))
- If requested to provide such information and counseling, staff at the service site will **provide neutral, factual information and nondirective counseling on each of the options** (except with respect to any option(s) about which the pregnant client indicates they do not wish to receive such information and counseling).
- Referral for additional services (e.g., for prenatal care, delivery, infant care, foster care, adoption, or pregnancy termination) will be made upon request.
- When a client requests referral for pregnancy termination/abortion, they may be given a name, address, telephone number, and other relevant factual information (such as whether the provider accepts Medicaid, charges, etc.). **Staff will not**

**take further affirmative action (such as negotiating a fee reduction, making an appointment, providing transportation) to secure abortion services for the client (65 Fed. Reg. 41281 (July 3, 2000)).**

## **Abortion Referral List**

### **Florida Bans Abortions after 15 weeks**

1. Tallahassee Health Center
